

Cylinder Fill Manifolds

Acme Cylinder Fill Manifolds come in a full range of styles and sizes to meet your fill plant requirements. Hand wheel connections allow for wrench free hook up to your cylinders.

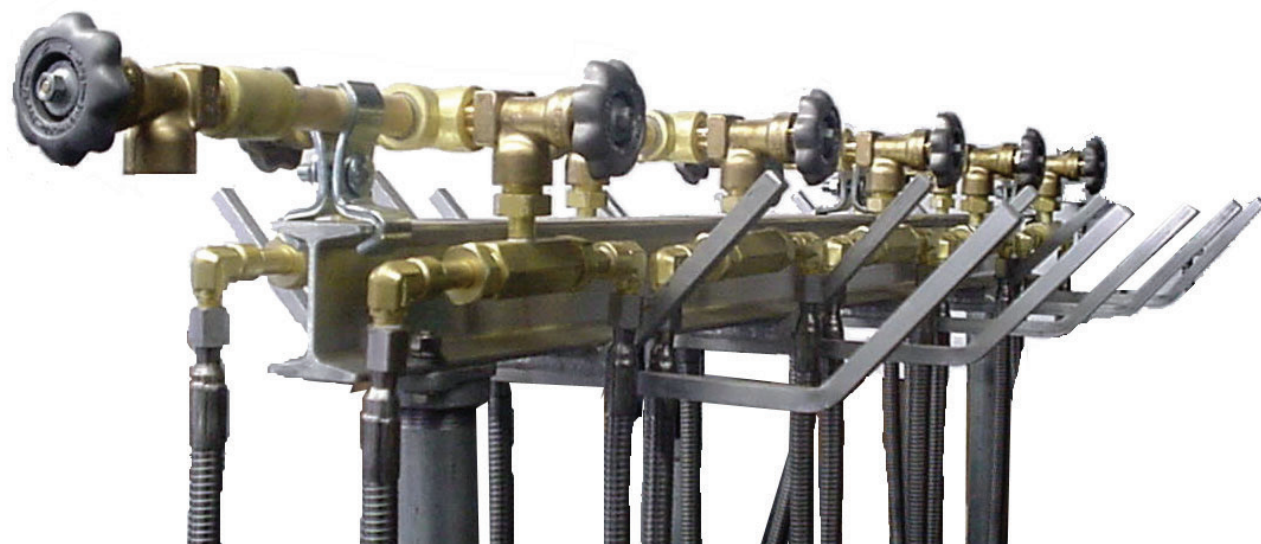

Acme Cylinder Fill Manifolds are available in standard configurations. Simply specify the number of cylinder stations and gas service that you desire. Acme standards are 12 and 18 cylinder, two-sided manifolds. For 36 cylinders, two 18 cylinder assemblies are linked together.
