

REMOTE ALARM BOX

The Acme Model S300 Remote Alarm Box is a single channel unit designed for use with any Acme automatic changeover manifold. The alarm activates upon the closure of a contact, providing an audio and visual alert that changeout must occur. The Model S300 is recommended for general use only.

DESIGN FEATURES

- Green light Shows unit is powered and active
- Red light visually indicates alarm condition, until changeout occurs
- Alarm Buzzer Eliminates need for constant monitoring - audibly indicates exhausted bank
- 110 Vac Plug-in Power w/Six Foot Cord & Jack Ensures easy, convenient connections
- ABS Plastic Housing Easy-to-maintain material, saves space via wall mounting
- Up to 100 Feet of Cable Adds flexibility to system configuration
